

Overview

Aruba 370EX Series Hazardous Location Access Points

High-performance 802.11ac Wave 2 for hazardous locations and harsh outdoor environments

In outdoor and environmentally challenging locations such as oil rigs, mining facilities, and industrial plants, networks need to be protected from extreme temperatures, flammable gas, vapor, and dust concentrations. With Class 1 Division 2 and ATEX Zone 2 certifications, the Aruba 370EX Series Access Points deliver hardened multi-gigabit Wi-Fi to hazardous locations.

The 370EX series provides a maximum aggregate data rate of over 2 Gbps (2.4GHz: 300Mbps; 5GHz: 1,733 Mbps) as well as multi-user MIMO (MU-MIMO), 4 spatial streams (4SS), and optional 160MHz channel bandwidth (VHT160) to quickly add performance and capacity to existing or new wireless networks.

Purpose-built to survive in the harshest environments, the 370EX Series have undergone extensive certification testing (Class 1 Division 2 and ATEX Zone 2, and IP66/67) to demonstrate the ability to withstand exposure to high and low temperature extremes, windspeeds up to 165 mph, and tolerate persistent moisture, precipitation, and dust and salt sprays for extended periods of time. All electrical interfaces include industrial strength surge protection.

Aruba 370EX Series – Front View

Overview

Key Features

- Deliver gigabit Wi-Fi to outdoor and extreme environments.
 - 2 Gbps of maximum throughput.
 - WPA3 and Enhanced Open security.
 - Patented ClientMatch technology resolves sticky client issues and optimizes Wave 2 performance.
 - AI-powered AirMatch automates RF optimization.
 - IoT-ready with integrated Bluetooth Low Energy (BLE).
 - Participates in Aruba's Dynamic Segmentation solution.
-

Standard Features

MU-MIMO-aware Client Optimization

The 370EX Series includes Aruba's patented ClientMatch technology to eliminate sticky client issues while optimizing 802.11ac Wave 2 performance. These APs continuously gather session performance metrics to steer mobile devices to the best-available AP – even while users roam. With MU-MIMO awareness, ClientMatch can group MU-MIMO capable devices together to increase network capacity and efficiency. ClientMatch also participates in Aruba's AI-powered Mobility solution.

IoT-Ready

Like all Aruba Wi-Fi 6 APs, the 370EX Series includes an integrated Bluetooth Low Energy radio to simplify the deployment and management of location services, asset tracking services, security solutions and IoT sensors. This allows organizations to leverage the 360 Series as an IoT platform, which eliminates the need for an overlay infrastructure and additional IT resources.

Simple and Secure Access

To simplify policy enforcement, the Aruba 370EX Series uses Aruba's policy enforcement firewall (PEF) feature to encapsulate all traffic from the AP to the Mobility Controller (or Gateway) for end-to-end encryption and inspection. Policies are applied based on user role, device type, applications, and location. This reduces the manual configuration of SSIDs, VLANs and ACLs. PEF also serves as the underlying technology for Aruba Dynamic Segmentation.

Unique Features:

- WPA3 and Enhanced Open
 - Support for stronger encryption and authentication is provided via the latest version of WPA for enterprise protected networks.
 - Enhanced Open offers seamless new protection for users connecting to open networks where each session is automatically encrypted to protect user passwords and data on guest networks.
 - WPA2-MPSK
 - MPSK enables simpler passkey management for WPA2 devices – should the Wi-Fi password on one device or device type change, no additional changes are needed for other devices. Requires ClearPass Policy Manager.
 - VPN Tunnels
 - In Remote AP (RAP) and IAP-VPN deployments, the Aruba 318 Series can be used to establish a secure SSL/IPSec VPN tunnel to a Mobility Controller that is acting as a VPN concentrator.
 - Trusted Platform Module (TPM)
 - For enhanced device assurance, all Aruba APs have an installed TPM for secure storage of credentials and keys, and boot code.
 - Flexible operations and management
 - Controller-less (Instant) mode - For enhanced device assurance, all Aruba APs have an installed TPM for secure storage of credentials and keys, and boot code.
https://www.arubanetworks.com/assets/tg/TB_Aruba-Instant-Mode.pdf
 - Mobility Controller mode - For optimized network performance, roaming and security, APs tunnel all traffic to a mobility controller for centrally managed traffic forwarding and segmentation, data encryption, and policy enforcement.
https://www.arubanetworks.com/assets/ds/DS_ArubaOS.pdf
 - Other management options - Aruba offers two network management options: cloud-based Aruba Central or Aruba AirWave for on-prem deployments. For organizations with the need for more flexible services, higher scale and performance, learn about the next generation management capabilities of Aruba Central
https://www.arubanetworks.com/assets/ds/DS_ArubaCentral.pdf, an AI powered network operations solution.
-

Standard Features

Additional Features

- Zero Touch Provisioning - APs can be factory-shipped and zero-touch provisioned through Aruba Central or AirWave using a cloud-based service to reduce deployment time, centralize configuration, and manage inventory.
 - Advanced Cellular Coexistence - Minimizes interference from 3G/4G LTE cellular networks, distributed antenna systems (DAS), and commercial small cell or femtocell equipment.
 - Hardened, industrial design - Extends the temperature range capabilities of indoor access points for environments that lack heating and cooling. It also provides sealed connector interfaces to protect against dust and moisture.
-

Warranty

- **Limited lifetime warranty**
-

Configuration Information

Build To Order: BTO is a standalone unit with no integration. BTO products ship standalone are not part of a CTO or Rack-Shippable solution.

Notes: [OCA Only Model Selection Form - Aruba > Wireless > Access Points > Outdoor / Rugged > 370EX Series](#)

Configuration Rules

- 6 The EX APs should be used in Class 1 Div 2 required locations (C1D2)
- 7 The ATEX APs should be used in ATEX Zone 2 required locations (ATEX Zone 2)

Mounting Accessories

AP Mount Kits

Std (Min 0 // max 1) User Selection (min 0 // max 1)

AP-270-MNT-V1	AP-270 Series Outdoor Pole/Wall Long Mount Kit	JW052A
AP-270-MNT-V2	AP-270 Series Outdoor Pole/Wall Short Mount Kit	JW053A
AP-270-MNT-H1	AP-270 Series Outdoor AP Hanging or Tilt Install Mount Kit	JW054A
AP-270-MNT-H2	AP-270 Series Access Flush Wall or Ceiling Mount	JW055A
AP-270-MNT-H3	AP-270 Series Outdoor AP Hanging or Dual-Tilt Install Mount Kit	R6W11A

- Notes:**
- For 375EX:
 - o V1 bracket most often used for pole mount.
 - o V2 bracket most often used for wall mount.
 - o H1 bracket most often used for hanging from inclined or horizontal structure.
 - o The AP-375EX chassis does not ship with bracket
 - For 377EX:
 - o H1 bracket most often with AP-377 for mounting to a wall. Allows chassis tilt in single axis.
 - o H3 bracket most often with AP-377 for mounting to a wall. Allows chassis dual-tilt in two axes.
 - o V1 and V2 brackets can be used but will result in the AP-377 pointing down.
 - o The AP-377EX chassis does not ship with bracket.

Technical Specifications

Wi-Fi radio specifications

- AP type: Outdoor hardened, dual radio, 5 GHz 802.11ac 4x4 MIMO and 2.4 GHz 802.11n 2x2 MIMO
- Software-configurable dual radio supports 5 GHz (Radio 0) and 2.4 GHz (Radio 1)
- 5GHz: Four spatial stream Multi User (MU) MIMO for up to 1,733 Mbps wireless data rate to up to three MU-MIMO capable client devices simultaneously
- 5GHz: Four spatial stream Single User (SU) MIMO for up to 1,733 Mbps wireless data rate to individual 4x4 VHT80 or 2x2 VHT160 client devices
- 2.4GHz radio: Two spatial stream Single User (SU) MIMO for up to 300 Mbps wireless data rate to individual 2x2 HT40 client devices
- Support for up to 256 associated client devices per radio, and up to 16 BSSIDs per radio
- Supported frequency bands (country-specific restrictions apply):
 - 2.400 to 2.4835GHz
 - 5.150 to 5.250GHz
 - 5.250 to 5.350GHz
 - 5.470 to 5.725GHz
 - 5.725 to 5.850GHz
- Available channels: Dependent on configured regulatory domain
- Dynamic frequency selection (DFS) optimizes the use of available RF spectrum
- Supported radio technologies:
 - 802.11b: Direct-sequence spread-spectrum (DSSS)
 - 802.11a/g/n/ac: Orthogonal frequency-division multiplexing (OFDM)
- Supported modulation types:
 - 802.11b: BPSK, QPSK, CCK
 - 802.11a/g/n: BPSK, QPSK, 16-QAM, 64-QAM, 256-QAM (proprietary extension)
- Transmit power: Configurable in increments of 0.5 dBm
- Maximum (conducted) transmit power (limited by local regulatory requirements):
 - 2.4GHz band: +25 dBm per chain, +28dBm aggregate (2x2)
 - 5GHz band: +22 dBm per chain, +28dBm aggregate (4x4)

Notes: Conducted transmit power levels exclude antenna gain

- Maximum EIRP (limited by local regulatory requirements):
 - 2.4 GHz band:
 - 375EX: 32.0 dBm EIRP
 - 375ATEX: 25.6dBm EIRP
 - 377EX: 34.4 dBm EIRP
 - 5 GHz band:
 - 375EX: 35.6 dBm EIRP
 - 375ATEX: 32dBm EIRP
 - 377EX: 36 dBm EIRP
- Advanced Cellular Coexistence (ACC) minimizes interference from cellular networks
- Maximum ratio combining (MRC) for improved receiver performance
- Cyclic delay/shift diversity (CDD/CSD) for improved downlink RF performance
- Short guard interval for 20-MHz, 40-MHz, 80-MHz and 160-MHz channels
- Space-time block coding (STBC) for increased range and improved reception
- Low-density parity check (LDPC) for high-efficiency error correction and increased throughput
- Transmit beam-forming (TxBF) for increased signal reliability and range
- Supported data rates (Mbps):
 - 802.11b: 1, 2, 5.5, 11
 - 802.11a/g: 6, 9, 12, 18, 24, 36, 48, 54
 - 802.11n (2.4GHz): 6.5 to 300 (MCS0 to MCS15)
 - 802.11n (5GHz): 6.5 to 600 (MCS0 to MCS31)
 - 802.11ac: 6.5 to 1,733 (MCS0 to MCS9, NSS = 1 to 4 for VHT20/40/80, NSS = 1 to 2 for VHT160)
- 802.11n high-throughput (HT) support: HT 20/40

Technical Specifications

- 802.11ac very high throughput (VHT) support: VHT 20/40/80/160
 - 802.11n/ac packet aggregation: A-MPDU, A-MSDU
-

Series specifications

- AP-375EX
