

COMMBOX BRINGS YOU THE...

commBOX Focus AI

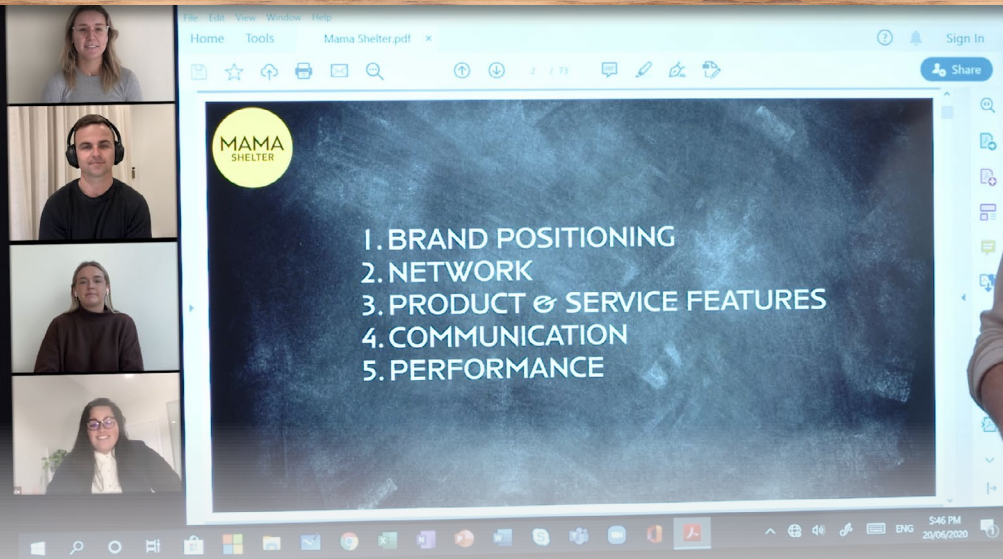

The CommBox Focus AI is your team's answer to creating real, virtual connections. Strengthen and enhance your ability to meet and collaborate virtually by capturing sharper, brighter visuals & clearer, fuller audio with a radius of up to 3m.

The days of meeting in shared physical spaces are behind us, but the power of face to face interaction is still prevalent. The CommBox Focus AI bridges virtual space, delivering an in-room collaboration experience from anywhere in the world. With auto framing and face tracking, noise cancellation & cross-platform compatibility, the Focus AI is the all-in-one, smarter, more sophisticated way to meet and collaborate remotely. Mount it on a CommBox touchscreen or Display for the ultimate VC user experience.

KEY FEATURES:

- Auto framing and face tracking function
- Built-in highly sensitive microphone array for 360° voice pickup, up to 3m radius
- Built in speaker with automatic gain control (AGC)
- 94 ° diagonal field of view, 90° horizontal angle of view
- Compatible with most of video conferencing software
- Audio 3A algorithm for accurate noise reduction and echo cancellation
- Built-in 1.8 meters USB cable, plug-and-play with any PC or UC platform
- For use in conjunction with a Windows OPS or device

SKU : CBVCFAI
