

COMPANY PROFILE

ABOUT US

We are a leading IT and telecommunications provider throughout Sydney, Greater Sydney and the Illawarra. IT&T was founded by Serge Niazi with the aim of becoming the best source of information technology and telecommunication solutions in the region, and over the following 27 years we believe that we have more than done that.

If our reputation precedes us, it is one that boasts an unbreakable work ethic and a keen understanding of the intricacies of IT support. That's why we are proud to say that we have led the way with IT and telecommunications, and have partnered with industry leaders such as, Microsoft, Access4, Kyocera, HP, Aruba, D-Link, Avast, Fusion Broadband.

More than anything, IT&T can boast that for over a quarter of a century, we have been supplying cost-effective, top of the range IT and telecommunications solutions, to the Illawarra and beyond.

OUR SERVICES

We are able to provide the highest level IT and telecommunication services possible, across a broad spectrum, while still tailor making them to your brand's exact specifications, meaning that every business can and will be completely covered.

Our services include, but are not limited to:

Managed IT Services

Internet

Phone systems

Printing and documents

Fully managed network and desktop support

Mobiles

Data centres

Cloud services

Cyber security

Cabling services

Video conferencing

Web design

Account management

Project management

Financing

No matter what your IT needs, IT&T will have you covered.

MANAGED IT SERVICES

With IT&T your IT is fully taken care of. We offer fully managed IT services for your network infrastructure and employee endpoints. Additionally, we fully support all modern Windows and Linux server operating systems both on-premise or cloud hosted.

INTERNET

Modern business requires secure, reliable internet access. IT&T can provide individually crafted service to any business, as well as establishing NBN connections for FTTP, FTTN, FTTC, FTTB, HFC, wireless and satellite.

We also provide market leading zero packet loss WAN and SD-WAN multi-site/multi-link aggregation services across all WAN mediums.

PHONE SYSTEMS

To run a successful business, communication is key. This starts with a robust telecommunications solution, and IT&T is able to ensure your business is equipped with top of the line systems suited to any business.

PRINTING & DOCUMENTS

Despite the wireless nature of the world, IT&T recognises that that printing still plays a crucial role in several industries. IT&T can supply printing services and fully managed print services (MPS) that are efficient and affordable.

MOBILES

There is possibly no piece of technology more useful than mobile phones, and we recognise that, which is why we offer top of the line mobile services.

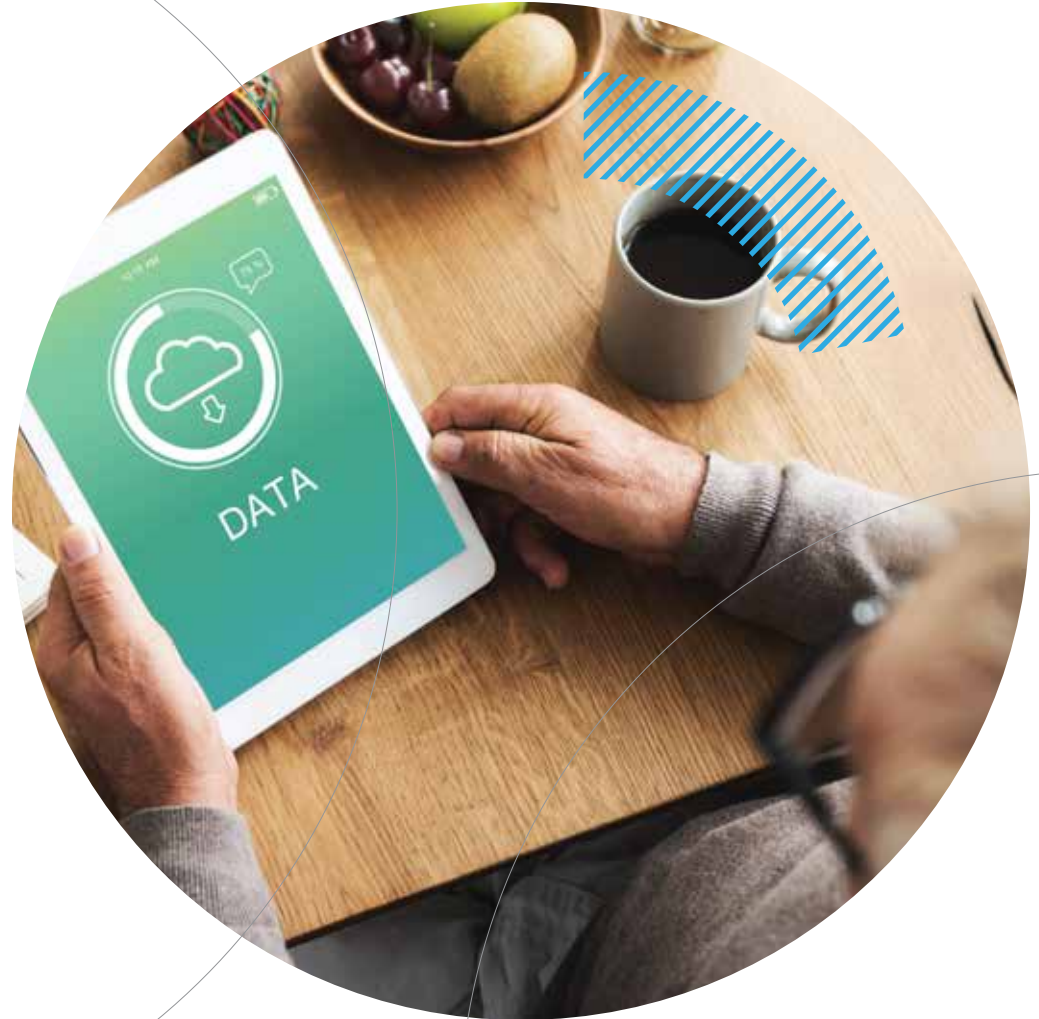

DATA CENTRES

Through partnerships with leading Sydney based data centres, we can provide a broad range of network services, connecting customers and partners to their digital supply chain. In an increasingly online world, data centres play a crucial role in providing secure, highly resilient solutions for your line of business services.

CLOUD SERVICES

Cloud computing is the new normal, and IT&T wants to make sure that your business is not left behind. We offer several cloud services to improve your business, including software, infrastructure and platform as a service, hosting, and cloud storage and backup.

CYBER SECURITY

CONFIRM

[click here for more information](#)

CYBER SECURITY

As more businesses choose to integrate technology the criticality of cyber secure environments increases. This includes mandating strong passwords with MFA across all systems, implementing market leading anti-virus solutions and conducting thorough cyber security policies across your business that align to The Australian Cyber Security Council (ACSE) Essential Eight.

CABLING SERVICES

ACMA compliant, high quality cabling remains crucial to running core network infrastructure. IT&T takes care of this for you, ensuring a cabling set up that's efficient and effective, and lets you get on with the work.

VIDEO CONFERENCING

As businesses become more online, and more spread out than ever before, video conferencing becomes an absolute necessity. It reduces costs for businesses, and provides a streamlined way for people working remotely.

WEB DESIGN

A website is often the first impression a customer receives from a business, so it is crucial that these websites are designed to optimum effectiveness. Combining responsiveness, control, and custom design, IT&T can help create the perfect site for your business.

ACCOUNT MANAGEMENT

Running a business means maintaining a number of accounts, which can often become overwhelming or confusing. IT&T offers a solution to this, managing any and all required accounts, from phone accounts to software systems, and everything in between.

PROJECT MANAGEMENT

Looking to launch a new project? IT&T can help every step of the way, from managing budgets, scope and timeline, to mitigating issues. We will be with you every step of the way, from inception to completion, and help achieve the best possible outcome for your business.

VEHICLE TRACKING

If your business requires vehicles: for delivery, for transport, for anything, IT&T can help. Our vehicle tracking can help you manage your fleet, ensuring safety and productivity, by partnering with 4Trackers Fleetconnect.

If you're just getting started, and can't buy everything you need at once, why not consider leasing? We offer access to the best technology, for a monthly fee, providing a cost effective method to keep your business up to date and within budget.

FINANCING

CUSTOMISED SOLUTIONS FOR INDUSTRY

We understand that every industry, and each business within these industries, are independent with their own specific requirements. That is why we are proud to offer customised solutions for industries, such as healthcare, manufacturing, legal, and finance. Our solutions are comprehensive, and industry specific, which ensures you have the tools to succeed in an ever-changing digital climate.

HOSTING AND DOMAIN

Through IT&T, your business can register their own domain, as well as renew and transfer existing ones. You can also gain help and support with web hosting, wordpress hosting, DNS hosting and SSL certificates. Additionally, we have support with Windows and Linux servers, ensuring that your business is fully taken care of.

OUR MISSION

Put simply, our mission at IT&T is to provide the best service imaginable for all our clients, big or small, addressing any and all IT and telecommunication needs.

CUSTOMER PORTFOLIO

IT&T is proud to have worked with a number of the most significant companies in the companies throughout Greater Sydney and the Illawarra, boasting a broad and diverse customer base that includes but is not limited to: O'Hara Hotel Group, Sports Master International, Gerringong Family Practice, City Medical Wollongong, Coastal Stairs, and Better Choice Fisheries. We like to think our work speaks for itself, and in this case our extensive catalogue of satisfied customers is second to none.
